ECHOES OF THE CELEBRATION.—The sesqui-centennial celebration of Thursday last is still the theme of conversation among many, and it will be some days yet before its echoes finally die away. In fact numbers who came here from other places for the purpose of witnessing the festivities have remained in the city, and are still moving around examining more closely historic spots which they merely had time to glance at during the day of the parade. All the electric lights which were put in for the occasion were ablaze again last night, while the great bulk of the decorations remained in contact. Hence more than the average number of people were again on King street, while many were strolling through Washington street. Today many of the decorations have been taken from houses. This work, however, has been carried on by professional decorators, but the flags, bunting, &c., placed on houses by the occupants and owners in many instances are still to be seen. The gun-bar Machias, which had taken a prominent part in the celebration, left this morning for Norfolk. As is usual on Saturdays, there were large numbers of country people here today. Multitudes of them were here Thursday, and they all with one accord pronounced the parade the best they ever witnessed. Some who were not present on the occasion have been much interested in inspecting what remains in the shape of decorations, and expressed regret they were unable to mingle with Alexandrians on the occasion.

The committee appointed to pay the employees their wages, if any were due, and to see that none of the visitors went away dissatisfied, have reported. They state that all bills were paid on presentation, and that if any one went away dissatisfied it was his or her fault. Their report has been received and accepted.

The following additional sums have been received by the committee to aid in defraying the expenses incident to the occasion: W. W. Athey, Leesburg, \$1; Simon, Coffey and McCalley, Washington, \$5; Crawford Crook, \$5; Lewis Hood, \$5; J. T. Walker & Sons, Washington, \$10; General G. W. C. Lee, \$25; Col. Morton Mayre, \$25; C. Lee Moore, Richmond, \$25.

MR. W. B. CORSE, who for some months past has been acting as City Engineer, today retired from that office, the time for which he was appointed by the Mayor, under act of the City Council, having expired. Mr. Corse will not be a candidate for the position at the election to be held by the City Council. Mr. Corse, it is understood, will resume his connection with the U. S. Geological Survey, and his many friends here wish him every success in his profession. During his service in Alexandria a considerable amount of street work was done under his supervision.
